PROJECT CONCEPT

THE CANADIENNE COW

SEMENCES & EMBRYONS

WHAT'S NEW

RESEARCH

★ SEMEN

This catalog features traditional-type Canadienne bulls that meet specific criteria for producing terroir cheese. As part of the development of this particular dairy network, several bulls have been bred and marketed so as to re-establish this heritage breed's traditional-type aptitudes and characteristics. As well, it is crucial to take into consideration the breed's functionality and profitability in the enhancement of the traditional-type Canadienne cow's genetics. This catalog completes the Canadienne bull offer.
